

## FIELD SURVEY CREW TECHNICIAN

We have an immediate opening for a survey crew technician. Land Surveyors, Inc. is located in Butler County and primarily work on boundary surveys. The position is for a field technician whose duties will include giving foresights and backsights using a pole and prism, brush cutting, setting stakes and iron pins, load and unload equipment. Applicant must be able and willing to work outside in any type of weather conditions and be open to training to operate survey instrument. Applicant will be trained to do research, plotting and filing on bad weather days, and other duties required by supervisors.

Salary will be dependent on experience.
